PROFESSIONAL SUMMARY

Full Stack MERN Developer with hands-on experience building production web applications across healthcare, warehouse management, and document management domains. Skilled at architecting REST APIs, designing MongoDB data models, and integrating third-party services (Tally, OnlyOffice, Microsoft 365) into custom business systems.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Responsive UI/UX

Backend: Node.js, Express.js, RESTful API Design

Databases: MongoDB, MongoDB Atlas, Schema Design

Tools & DevOps: Git, GitHub, Vercel, Netlify, cPanel Deployment, Postman

Other: Basic SEO (On-Page Optimization)

Integrations: OnlyOffice, Microsoft 365 URI Schemes, Tally, Iframe Embedding

PROFESSIONAL EXPERIENCE

Web Developer | *Uniresources Services Pvt. Ltd.*

Jan 2026 – Present

- Develop and maintain full-stack business websites for multiple company clients, including Uniotech IT Solutions, Shubh Muhurat Matrimonials, IT Remote Solutions, Prime Driving School, and Star Knife.
- Manage client dashboards and operational records for Romashka Health Care, streamlining record-keeping for medical service providers.
- Administer staff accounts, triage and resolve support tickets, and ship feature upgrades across live client deployments.
- Partner with cross-functional teams to debug core architectural issues and restructure API endpoints, improving data-fetch performance.

Web Development Intern | *S.O Infotech Pvt. Ltd.*

2025 (6 Months)

- Built a News Web Application and a Banking Management System using Java, JSP, and Servlets, covering both frontend views and backend business logic.
- Gained hands-on foundation in server-side Java web development, session handling, and database-driven application design.

KEY PROJECTS

Clothing Warehouse Management System (WMS) — *MERN Stack*

- Architected a real-time inventory tracking system handling complex material supply and stock-movement logic.
- Built a secure gate-entry module with image verification for guard terminals to control warehouse access.
- Led integration with Tally to sync warehouse transactions directly with the accounting pipeline, removing manual reconciliation.

Advanced Document Management System (DMS) — *React, Node.js, Express, OnlyOffice*

- Built a secure document platform with a nested folder structure supporting granular access and organization.
- Integrated OnlyOffice servers and Microsoft 365 URI schemes to enable in-browser document editing and iframe-based embedding.

E-Commerce Website — *React, Tailwind CSS, Express, MongoDB*

- Built a full-stack shopping platform with product catalog, cart, and order flow.

Job Hai — Job Portal — *React, Node.js, Express, MongoDB*

- Developed a job-search platform for users to discover and apply to roles by title, skill, and location.

Bus Booking System — *React, Node.js, Express, MongoDB*

- Built an online ticket booking platform with route search, seat selection, and booking management.

EDUCATION & TRAINING

- Bachelor of Technology (B.Tech) — YMCA University of Science & Technology
- Diploma in Engineering — CDL Government Polytechnic, Sirsa
- Advanced Technical Training, Java & Full Stack MERN Development — Ducate, Noida
- Academic Project: ATM Simulation System (Java) — console-based banking application built during Java training.
